

## TABLEAU GETTING STARTED GUIDE

To prepare for the upcoming Tableau lessons, please install the Student License as follow:

- [Download the most recent version of Tableau](#)
- Then this installation key: **####-####-####-####-####**
- Click on the link above and then click on “Get Started”.

After launching the above link,  
Select “Get Started” to proceed.

Which pops up a dialog screen to enter  
your name, business email, and your  
GA class information, as follows:

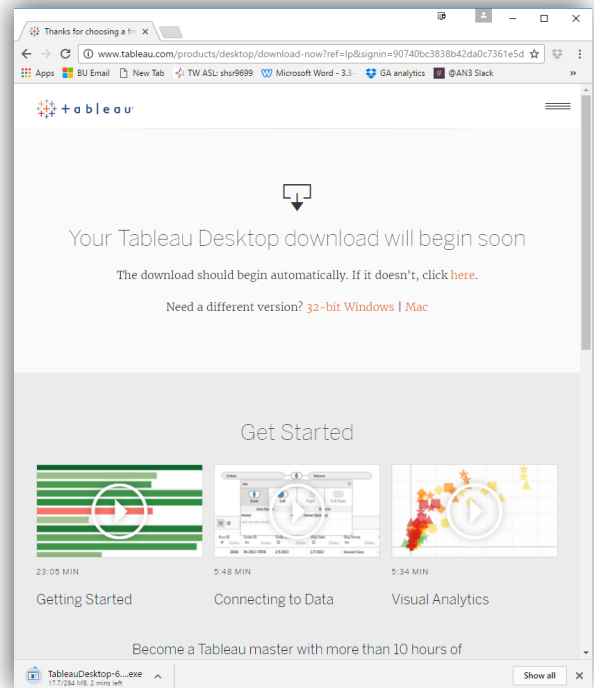

A screenshot of a "Get started" dialog box with a dark background. At the top right is a "CLOSE" button with an 'X' icon. The title "Get started" is centered, followed by the text "Downloads in under 2 minutes.". Below this are several input fields: "First Name" (containing "Stephen"), "Last Name" (containing "Strange"), "Business E-mail" (containing "DoctorStrange@superhero.us"), "Organization" (containing "General Assembly (Austin, Texas)"), "Location" (containing "Austin, TX 78701, USA"), and "Phone" (containing "512-555-1212"). A note states "\* All fields required.". At the bottom is an orange "DOWNLOAD NOW" button. Below the button, there is a link for "Having trouble?" and a line of text that says "We respect your privacy | Having trouble?".

The download may take several minutes.

Consider the age of your computer system. Older systems may require the 32-bit version for Windows or Mac.

Look for the download time remaining on the browser status bar at the bottom.

Accept license agreement terms. Click the "Install" button. Version 10.3.1 was released June 2017.

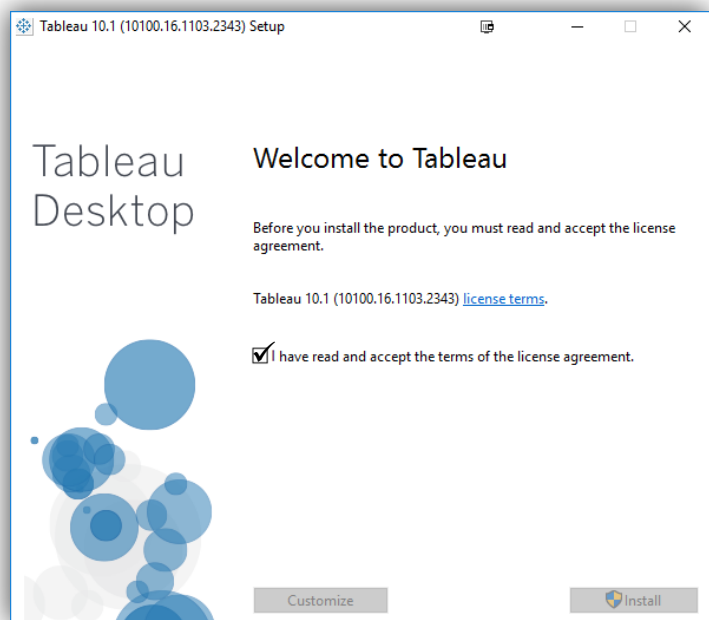

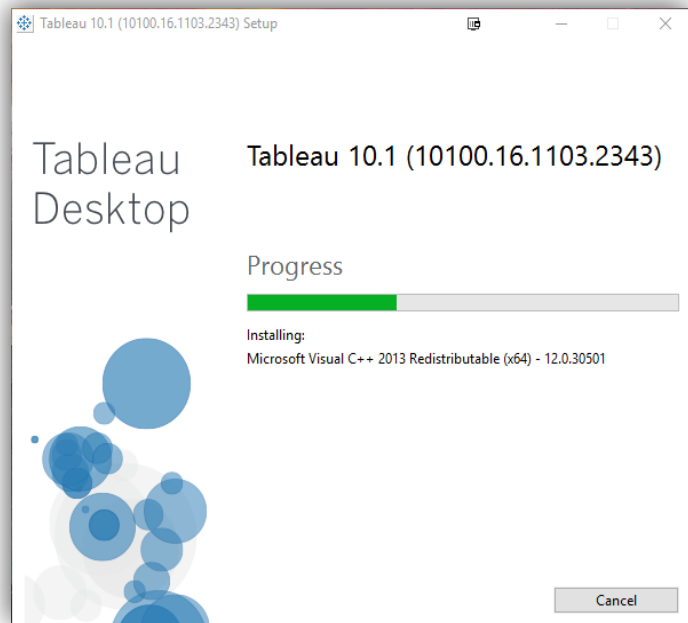

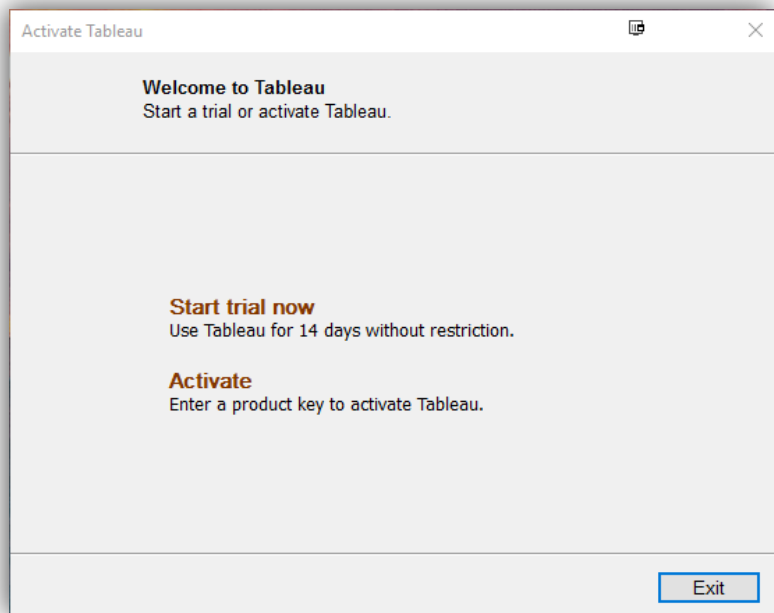

Tableau will install onto your computer system.

After installation is completed, select **Activate**.

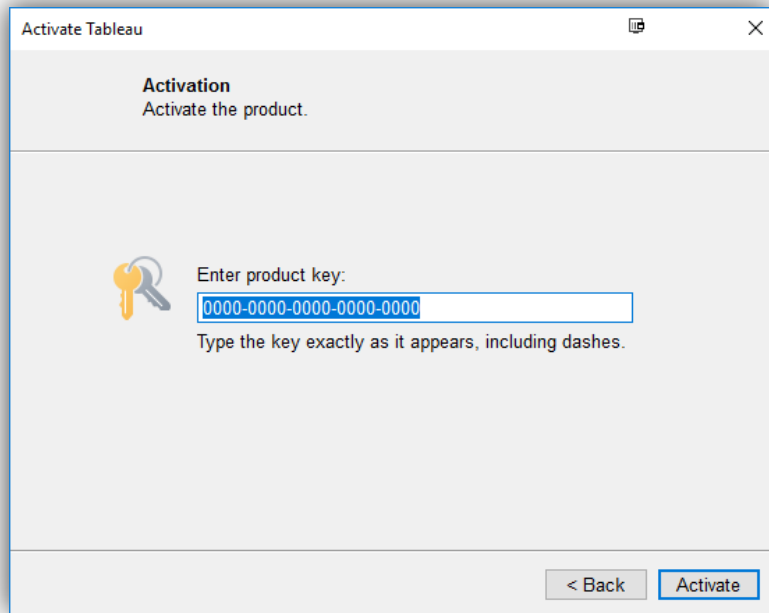

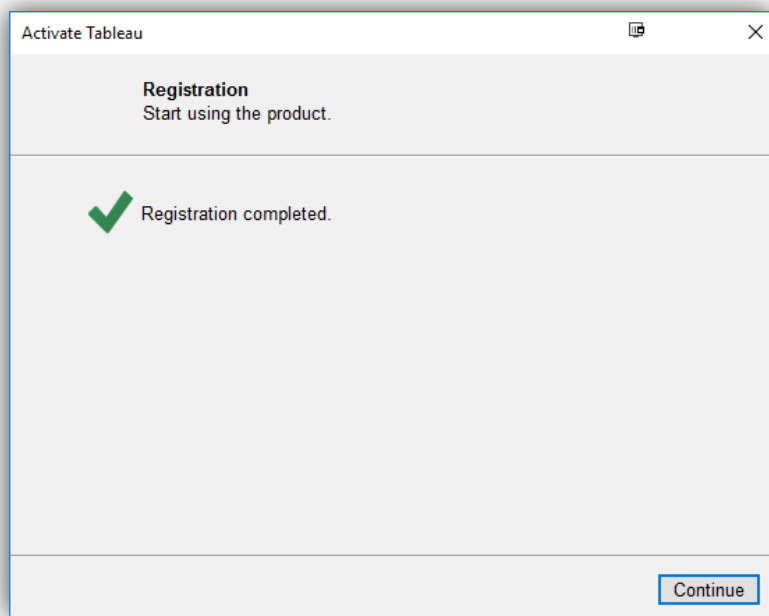

Enter (copy/paste) the class product activation code:

####-####-####-####-####

Click “Activate” once entered.

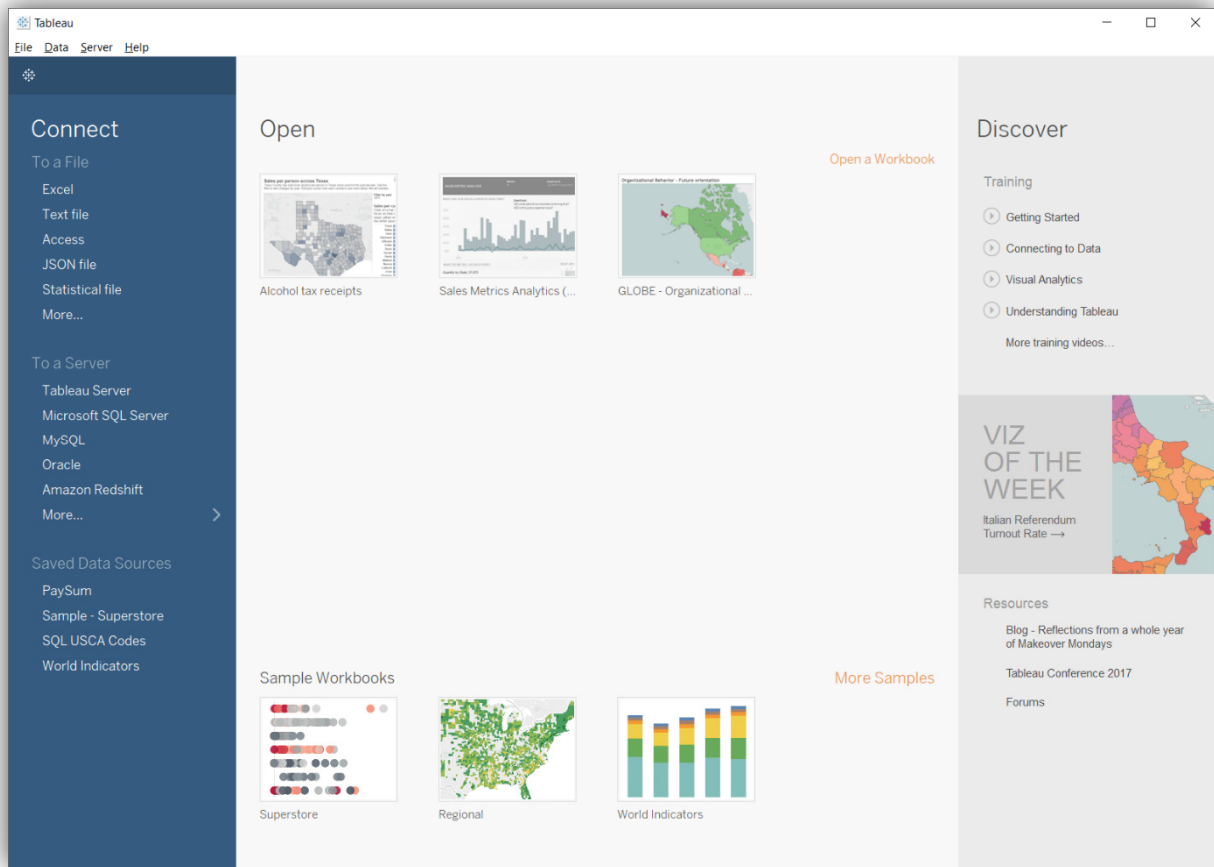

Click Continue.

You will then proceed to Tableau's main screen, as shown below:

Before our next class, please watch all 3 videos in the Getting Started section, and the first 5 videos in the Connecting to Data section. Total viewing time is 60 minutes for all 8 videos.

Download all sample data sets and workbooks and follow-along with each video.
